

REX130

EXCAVATOR

Unprecedented precision and ease of operation.

This Rhino excavator is loaded with enhancements that not only increase productivity and uptime, but lower daily operating costs, too. A high-efficiency "on-demand" cooling system, advanced multifunction monitor, and productivity modes to allow you to choose your digging style headline the long list of advances.

1. Level climate-control system with automotive-style adjustable louvers helps keep the glass clear and the cab comfortable.
2. LCD monitor provide intuitive access to a wealth of information and functions.
3. Ergonomically correct short-throw pilot levers provide smooth, predictable fingertip control with less movement or effort.

Highly Productive and Highly Efficient

With more arm force, bucket breakout force, and lift capacity, the REX130 is an impressive performer. And if you're looking to put even more work within reach, add any of the many options and attachments that increase machine capability and expand your profit potential.

Reliable and durable Cummins diesel engine, more efficient with low maintenance costs.

Generous flow, and swing torque help speed cycles. So you can do your best to stay on schedule or ahead of the weather.

With large idlers, rollers, and struted links, the sealed and lubricated undercarriage delivers long and reliable performance.
